Single Door Sign Box

A staple of our signature safety system, the sign and stand box has been a key component since TPB started on its mission to make products that are Built to Save Lives, Time, and Money. Its unique vertical design maximizes bed storage, protects stored signs, and brings attention to roadside work. Now, as a request from a trusted partner in safety, we offer just the sign box, with one door and slightly widened, as a stand-alone unit that can be easily installed on flatbed and utility trucks.
