

# SINGLE DOOR SIGN BOX

## BUILT TO SAVE

### Description

A staple of our signature safety system, the sign and stand box has been a key component since TPB started on its mission to make products that are Built to Save Lives, Time, and Money. Its unique vertical design maximizes bed storage, protects stored signs, and brings attention to roadside work. As a request from a trusted partner in safety, we are thrilled to offer a single door sign box as a stand-alone unit that can be easily installed on flatbed and utility trucks. Please note the sign box only has one door to access signs.

Store one unit on each side of the truck so employees can always access signs from the safe side of the bed. The unique vertical design maximizes bed storage, ensuring optimal use of bed space. While enclosed box protects stored signs, ensuring longevity and "like new" equipment status compliance. Unique vertical appearance helps draw motorist attention to active roadwork, promoting safer environments for workers and drivers. The sign boxes easy bolt in installation makes it ideal for flatbed and utility trucks.

**Disclaimer:** The product pictured is a show piece. Wheels pictured are not a part of this product. The sign box is designed to be bolted in place on a truck.
