

TPE TRUCK BED INSERT*

BUILT TO SAVE

DESCRIPTION

Optimize almost any pickup truck into a traffic control truck that maximizes equipment storage and safe access. Lightweight aluminum design maximizes load-bearing capabilities. The middle space holds cones for easy loading and unloading from the back of the truck, with space for up to 10 roll-up signs in the five bays underneath. Left and right side bays create plenty of space for safe and easy access to both large and small sign stands on either side of the bed. This insert is available for a 6ft or 8ft bed and can be made with or without a space right behind the cab for a toolbox.

HIGHLIGHTS

- Available for a 6ft bed or an 8ft bed.
- Can be made with or without toolbox space.
- Holds 10 roll-up signs
- Holds 30 to 40 cones with toolbox space; 60 to 70 cones without toolbox space.

6ft Specifications: Holds 10 to 12 stands, 10 roll-up signs, 30 to 70 cones—depending on other factors.

8ft Specifications: Holds 12 to 16 stands, 10 roll-up signs, 30 to 70 cones—depending on other factors.

*This product is designed and distributed through Traffic Pro Equipment, a Traffic Pro Bed subsidiary.
